SQ Junior SINGLE SPEED PUMP

ECONOMICAL, COMPACT AND BUILT TO LAST

If you're after a no-fuss pool pump that will work perfectly for your pool, then the Poolrite single-speed Pump is the ideal solution. Built to stand the test of time, it is ideal for tight locations where noise is a concern. You can rely on the SQ Junior to keep performing year after year.

Set and forget

Don't want complicated set up, this pump is for you. Simply plug it in to your chlorinator and let it work its magic.

Low maintenance

Featuring Poolrite's renowned lid design for fast and easy basket access, is a hassle-free choice due to its ease of cleaning and maintenance.

Ultra quiet operation

Through intelligent noise suppression design with thicker housing material and efficient impeller design, pump noise is at its lowest. Ideal for use during off-peak times.

Built to Last

With corrosion-resistant components, including a 316 stainless steel shaft and Viton seal, our pump guarantees longevity and resilience against harsh conditions.

Proven performance

All Poolrite pumps are backed by decades of rigorous testing ensuring that our pumps last the longest in the market.

Peak Performance

Featuring a glass-reinforced impeller, our pool pump optimizes water flow and pressure, ensuring top efficiency.

Product Overview

The Perfect Fit

When you swap the SQ Junior for other Poolrite pumps you can effortlessly install it without modifying the plumbing.

The SQ Junior is designed to be compatible with all Poolrite SQ models, including the SQI Series, SQ Pro, and SQ Gemini.

Warranty

- ✓ 10-year pump housing*
- ✓ 4-year motor and all other components

Microns**

CL Series

CARTRIDGE FILTER

EASY TO USE, COMPACT AND ULTRA FINE

The C series Cartridge Filters are compact, economical filters designed to effectively filter your pool from unwanted debris, with an internal element fabricated from pleated reusable polyester fabric designed to maximize cleaning abilities.

Cartridge Filters are an excellent alternative to traditional sand filters. Where as a traditional sand filter typically filters between 60-20 microns (depending on media) a cartridge filter will filter between 15-10 microns, thereby giving much better water clarity.

Warranty

✓ 4 years warranty (excluding cartridge)

Specifications

Model Name	Filter Area	Max Flow Rate	Max Pressure	Max Pool size	Minimum Element Removal Height
CL 100	100 sf	370 L/min	280 kPa	25,000	1075 mm

Filters 15-10 Microns

Captures particles down to 10 microns for crystal-clear water.

Configurable Ports

Four configurable ports enable easy integration and optimal placement, enhancing installation versatility.

Easy to Clean

Quick access lock-ring and auto air bleed for simpler upkeep. Spend less time on upkeep and more time enjoying your pool.

Enduro CHLORINATOR

RELIABLE, EASY TO USE, VERSATILE

Experience peace of mind by owning the Poolrite “Enduro” chlorinator, a reliable and innovative solution that promises pristine pool water with minimal effort. This versatile system supports salt and mineral salt treatments, easily adapting to your preferred pool care routine. Its intuitive touchpad simplifies operation, letting you manage your pool’s maintenance with just a few taps. With the self-cleaning cell feature, you can enjoy long stretches of uninterrupted use without frequent maintenance—backed by a robust warranty that assures a worry-free experience for years to come.

Designed for Australia

Engineered to endure the intense conditions of Australian summers, ensuring optimal performance and durability year-round.

Self-Cleaning Cell

Features an ultra-long life cell that self-cleans, reducing maintenance requirements.

Versatility

Compatible with both salt and mineral salt, accommodating different pool treatment preferences.

Simple Installation

Installing a chlorinator has never been easier with our quick connect cells.

User-Friendly Interface

Easy-to-use touch pad with a multifunctional menu system, ensuring straightforward operation.

Comprehensive Functionality

Includes features like automatic battery backup, built-in salt/TDS test, and multiple operational modes (backwash, super chlorinate, winter)
